In the Arctic

Matul A. G. et al, 2007. Recent and late Holocene environments on the southeastern shelf of the Laptev Sea as inferred from microfossil data, *Oceanology* 47: 80-90

A. G. Matul, Russian Academy of Sciences
T. A. Khusid, Russian Academy of Sciences
V. V. Mukhina, Russian Academy of Sciences
M. P. Chekhovskaya, Russian Academy of Sciences
S. A. Safarova, Russian Academy of Sciences

Y. M. Kononov, et al. 2005. High-resolution reconstruction of Polar Ural glacier mass balance for the last millennium, *Annals of Glaciology* 42: 163-170

Yuriy M. Kononov, Russian Academy of Science
Maria D. Ananicheva, Russian Academy of Science
Ian C. Willis, Cambridge University, UK

C. Shimada et al. 2004. Millennial-scale variability of Holocene hydrography in the southwestern Okhotsk Sea: diatom evidence, *The Holocene* 14, 641-650

Chieko Shimada, University of Tsukuba, Japan
Ken Ikehara, Geological Survey of Japan
Yoshihiro Tanimura, National Science Museum, Japan
Shiro Hasegawa, Kumamoto University, Japan

Jennings, A.E., et al. 2002. A mid-Holocene shift in Arctic sea-ice variability on the East Greenland Shelf, *The Holocene* 12: 49-58.

Anne E. Jennings, University of Colorado
Morten Hald, University of Tromso, Norway
Carsten Vigen Hansen, University of Aarhus, Denmark
John T. Andrews, University of Colorado

Lassen, S.J., et al. 2004. Late-Holocene Atlantic bottom-water variability in Igaliku Fjord, South Greenland, reconstructed from foraminifera faunas, *The Holocene* 14: 165-171.

Suzanne J. Lassen, Geological Survey of Denmark
Antoon Kuijpers, Geological Survey of Denmark
Naja Mikkelsen, Geological Survey of Denmark
Peter Konradi, Geological Survey of Denmark
Gerd Hoffman-Weick, GEOMAR Research Center, Kiel, Germany

Chylek, P., et al., 2007. Remote sensing of Greenland ice sheet using multispectral near-infrared and visible radiances, *Journal of Geophysical Research*, 112.

Petr Chylek, Los Alamos National Laboratory
M. McCabe, Los Alamos National Laboratory
M. K. Dubey, Los Alamos National Laboratory
J. Dozier, University of California, Santa Barbara

Lloyd, J.M., et al. 2007. Foraminiferal reconstruction of mid-to late-Holocene ocean circulation and climate variability in Disko Bugt, West Greenland, *The Holocene* 17: 1079-1091

Jeremy M. Lloyd, Durham University, UK
Antoon Kuijpers, Geological Survey of Denmark
Anthon Long, Durham University, UK
Mathias Moros, Baltic Sea Research Institute, Norway

Jennings, A.E. and Weiner, N.J. 1996. Environmental change in eastern Greenland during the last 1300 years: evidence from foraminifera and lithofacies in Nansen Fjord, 68°N, *The Holocene* 6: 179-191.

Anne E. Jennings, University of Colorado
N.J. Weiner, University of Colorado

Grinsted, A., et al. 2006. Svalbard summer melting, continentality, and sea ice extent from the Lomonosovfonna ice core, *Journal of Geophysical Research* 111: 10.1029/2005JD006494

Aslak Grinsted, University of Lapland, Finland
John C. Moore, University of Lapland, Finland
Veijo Pohjola, Uppsala University, Sweden
Tonu Martma, Tallinn University of Technology, Estonia
Elisabeth Isakksson, Norwegian Polar Institute

In Antarctica

Hemer, M.A. and Harris, P.T. 2003. Sediment core from beneath the Amery Ice Shelf, East Antarctica, suggests mid-Holocene ice-shelf retreat, *Geology* 31: 127-130.

Mark A. Hemer, National University of Ireland
Peter T. Harris, Antarctic Research Centre, Australia

Khim, B.-K., et al. 2002. Unstable climate oscillations during the Late Holocene in the Eastern Bransfield Basin, Antarctic Peninsula, *Quaternary Research* 58: 234-245.

H. I. Yoon, Korean Ocean Research and Development Institute
C. Y. Kang, Korean Ocean Research and Development Institute

E. Castellano et al. 2005. Holocene volcanic history as recorded in the sulfate stratigraphy of the European Project for Ice Coring in Antarctica Dome C, *Journal of Geophysical Research* 110.

E. Castellano, University of Florence, Italy
S. Becagli, University of Florence, Italy
J. Jouzel, Laboratory of Climate and Environmental Science, Gif sur Yvette, France.
A. Migliori, University of Florence, Italy
M. Severi, University of Florence, Italy
J. P. Steffensen, Neils Bohr Institute, Denmark
R. Traversi, University of Florence, Italy
R. Udisti, University of Florence, Italy

Hall, B.L. 2006. Holocene elephant seal distribution implies warmer-than-present climate in the Ross Sea, *Proceedings of the National Academy of Sciences USA* 103: 10,213-10,217.

Brenda Hall, University of Maine
Rus Hoelzel, University of Durham, UK
Carlo Baroni, University of Pisa
George Denton, University of Maine
A. L. Topf, University of Santa Cruz, CA

M.B. Williams et al. 2007. A 2000 year atmospheric history of methyl chloride from a South Pole ice core: Evidence for Climate-controlled variability, *Geophysical Research Letters* 94.

Margaret B. Williams, University of California, Irvine
Murat Aydin, University of California, Irvine
Cheryl Tatum, University of California, Irvine
Eric S. Saltzman, University of California, Irvine

A. Mackintosh et al. 2007. Exposure ages from mountain dipsticks in Mac. Robertson Land, East Antarctica, indicate little change in ice-sheet thickness since the Last Glacial Maximum,” *Geology* 35: 551-554.

Andrew Mackintosh, Victoria University of Wellington, New Zealand
Duanne White, Macquarie University, Sydney, Australia
David Fink, Australian Nuclear Science and Technology Organization

Damian B. Gore, Macquarie University, Australia
John Pickard, Macquarie University, Australia
Patricia C. Fanning, Macquarie University, Australia

Castellano, E., et al. 2005. Holocene volcanic history as recorded in the sulfate stratigraphy of the European Project for Ice Coring in Antarctica Dome C (EDC96) ice core. *Journal of Geophysical Research* 110: Do6114, doi:10.1029/2004JD005259.

Emiliano Castellano, University of Florence, Italy
Sylvia Becagli, University of Florence, Italy
Margaretta Hansson, University of Stockholm, Sweden
Manuel Hutterli, University of Bern, Switzerland
J. R. Petit, CNRS, France
M. R. Rampino, New York University
Mirko Severi, University of Florence, Italy
J. D. Steffenson, University of Copenhagen, Denmark

P. W. Williams et al. 2004. Speleothem master chronologies: combined Holocene O18 and C13 records from the North Island of New Zealand and their palaeoenvironmental interpretation, *The Holocene* 14: 194-208.

P. W. Williams, University of Auckland, Australia
D. N. T. King, University of Auckland, Australia
J.-X. Zhao, University of Queensland, Australia
K. D. Collerson, University of Queensland, Australia

In Asia

Baofu, N., et al. 1997. Reef-forming corals in the Nansha Islands and adjacent reef areas and their relations with environmental changes, *Beijing, Science Press*, p. 29-67 (in Chinese).

Nie Baofu, South China Sea Institute of Oceanology, China
Chen Teguo, South China Sea Institute of Oceanology, China
Liang Meitao, South China Sea Institute of Oceanology, China

Zicheng, P., et al. 2003. Thermal ionization mass spectrometry (TIMS)-U-series ages of corals from the South China Sea and Holocene high sea level, *Chinese Journal of Geochemistry* 22: 133-139.

Peng Zicheng, University of Science & Technology of China
He Xuexian, University of Science and Technology of China
Luo Xiaozheng, University of Science and Technology of China

He Jianfeng, University of Science and Technology of China
Liu Guijian, University of Science and Technology of China

Mazepa, V.S. 2005. Stand density in the last millennium at the upper tree-line ecotone in the Polar Ural Mountains, *Canadian Journal of Forest Research* 35: 2082-2091.

Valeri S. Mazepa, Russian Academy of Sciences

Sidorova, O.V., et al. 2007. Regional features of the radial growth of larch in North Central Siberia according to millennial tree-ring chronologies, *Russian Journal of Ecology* 38: 90-93.

Olga Sidorova, Russian Academy of Sciences
V. V. Shishov, Institute of Dendroclimatology, SIF, Russia
M. K. Hughes, Sukachev Institute of Forest, Siberia, Russia

Brauning, A. and Griessinger, J. 2006. Late Holocene variations in monsoon intensity in the Tibetan-Himalayan region - Evidence from tree rings, *Journal of the Geological Society of India* 68: 485-493.

Achim Brauning, University of Stuttgart, Germany
Jussi Greissinger, ICG-V Sedimentaire Systematic, Germany

Adhikari, D.P. and Kumon, F. 2001. Climatic changes during the past 1300 years as deduced from the sediments of Lake Nakatsuna, central Japan, *Limnology* 2: 157-168.

D. P. Adhikari, Shinsu University, Japan
F. Kumon, Shinsu University, Japan

Qiang, M., et al. 2005. Climatic changes documented by stable isotopes of sedimentary carbonate in Lake Sugan, northeastern Tibetan Plateau of China, since 2 kaBP, *Chinese Science Bulletin* 50: 1930-1939.

M Qiang, Lanzhou University, China
A. Zhou, Lanzhou University, China
F. Chen, Lanzhou University, China
J. Zhang, Lanzhou University, China

Kalugin, I., et al. 2005. Rhythmic fine-grained sediment deposition in Lake Teletskoye, Altai, Siberia, in relation to regional climate change, *Quaternary International* 136: 5-13.

I. Kalugin, Institute of Geology, Novosibirsk, Russia
V. Selegei, West Siberian Center for Monitoring Environmental Pollution, Russia
E. Goldberg, Limnological Institute, Irkutsk, Russia
G. Seret, International Bureau of Environmental Study, Brussels, Belgium

Chauhan, M.S. 2006. Late Holocene vegetation and climate change in the alpine belt of Himachal Pradesh, *Current Science* 91: 1562-1567.

M. S. Chauhan, Institute of Paleobotany, Lucknow, India

Liu, Y., et al. 2006. Precipitation variation in the northeastern Tibetan Plateau recorded by the tree rings since 850 AD and its relevance to the Northern Hemisphere temperature, *Science in China: Series D Earth Sciences* 49: 408-420.

Bodri, L. and Cermák, V. 1997. Climate changes of the last two millennia inferred from borehole temperatures: results from the Czech Republic - Part II, *Global and Planetary Change* 14: 163-173.

L. Bodri, Hungarian Academy of Science, Budapest, Hungary
V. Cermak, Hungarian Academy of Science, Budapest, Hungary

Ojala, A.E.K. and Alenius, T. 2005. 10,000 years of interannual sedimentation recorded in the Lake Nautajärvi (Finland) clastic-organic varves, *Palaeogeography, Palaeoclimatology, Palaeoecology* 219: 285-302.

Teija Alenius, Geological Survey of Finland

Garcia, M.J.G., et al. 2007. Late Holocene environments in Las Tablas de Daimiel (south central Iberian peninsula, Spain). *Vegetation History and Archaeobotany* 16: 241-250

Maria Jose Gil Garcia, University of Alcala, Spain
Maria Blanca Ruiz Zapata, University of Alcala, Spain
Juan Ignacio Santisteban, University Computense of Madrid
Enrique Lopez-Pamo, Geologic and Mineral Institute of Spain

Linderholm H. W. 2007. A high-resolution reconstruction of Storglacieran mass balance back to 1780/81 using tree-ring dna and circulation indices, *Quaternary Research*, 67: 12-20, 2007

Hans W. Linderholm, Goteborg University, Sweden
Peter Jansson, Stockholm University, Sweden
Delian Chen, National Climate Center, China

Hall, V.A. and Mauquoy, D., 2005. Tephra-dated climate- and human-impact studies during the last 1500 years from a raised bog in central Ireland, *The Holocene* 15: 1086-1093.

Valerie Hall, Queens College, Belfast, Ireland
Dmitri Mauquoy, Uppsala University, Sweden

Bjorck, S., et al. 2006. A Holocene lacustrine record in the central North Atlantic: proxies for volcanic activity, short-term NAO mode variability, and long-term precipitation changes, *Quaternary Science Reviews* 25: 9-32.

Svante Bjorcke, Lund University, Sweden
Bernd Kromer, Heidelberg Academy of Sciences, Germany
Tammy Rittenour, Umea University, Sweden
Peter Rosen, Umea University, Sweden
Zilda Franca, University of Azores
Per Moller, Lund University, Sweden
Ian Snowball, Lund University, Sweden
Stefan Wastegard, Stockholm University, Sweden
Ole Bennike, Geological Survey of Denmark

Billaud, I., et al. 2005. Evidence of a major environmental change recorded in a macrotidal bay (Marennes-Oléron Bay, France) by correlation between VHR seismic profiles and cores, *Geo-Marine Letters* 25: 1-10.

Isabelle Billaud, University of Caen, France
Eric Chaumillon, University de la Rochelle, France
Olivier Weber, University of Bordeaux, France

Carrion, J. S., 2002. Pattern and processes of Later Quaternary environmental change in a montane region of southwestern Europe, *Quaternary Science Reviews* 21: 2047-2066

Jose S. Carrion, University of Murcia, Spain.

Roncaglia, L. 2004. Palynofacies analysis and organic-walled dinoflagellate cysts as indicators of palaeo-hydrographic changes: an example from Holocene sediments in Skalfjord, Faroe Islands, *Marine Micropaleontology* 50: 21-42

Lucia Roncaglia, Geological Survey of Denmark

Kullman, L. 2005. Pine (*Pinus sylvestris*) treeline dynamics during the past millennium - a population study in west-central Sweden, *Annales Botanici Fennici* 42: 95-106.

Leif Kullman, Umea University, Sweden

Matthews, John A., et al. 2005. Holocene glacier history of Bjornbreen and climatic reconstruction in central Jotunheimen, Norway, based on proximal glaciofluvial stream-bank mires, *Quaternary Science Reviews* 24: 67-90.

John A. Matthews, University of Wales, UK
Mark S. Berrisford, University of Wales, UK
P. Quentin Dresser, University of Wales, UK
Svein Olaf Dahl, Bjerknes Centre for Climatic Research, Norway
Anne Elisabeth Bjune, Bjerknes Centre for Climatic Research, Norway
Jostein Bakke, Bjerknes Centre for Climatic Research, Norway
H. John, Bjerknes Centre for Climatic Research, Norway
B. Birks, Bjerknes Centre for Climatic Research, Norway
Oyvind Lie, Bjerknes Centre for Climatic Research, Norway
Lisa Dumany-Peaty, University of Bergen, Norway
Catherine Barnett, University of Exeter, UK

Murdmaa, I., et al., 2004. Paleoenvironments in Russkaya Gavan' Fjord (NW Novaya Zemlya, Barents Sea) during the last millennium, *Palaeogeography, Palaeoclimatology, Palaeoecology* 209: 141-154.

Ivar Murdmaa, Shirshov Institute of Oceanology, Russia
Leonid Polyak, Ohio State University
Elena Ivanova, Shirshov Institute of Oceanology, Russia
Natalia Khromova, Shirshov Institute of Oceanology, Russia

Emeis, K-C., et al. 2003. Salinity Changes in the central Baltic Sea Over the Last 10,000 years, *The Holocene* 13: 411-421

Kay-Christian Emeis, Baltic Sea Research Institute, Warnemunde, Germany
Ulrich Struck, Institute of Paleontology and Historical Geology, Munich, Germany
Thomas Blanz, University of Kiel, Germany
Alexander Kohly, University of Kiel, Germany
Maren Vos, Baltic Sea Research Institute, Warnemunde, Germany

Rosquist, G. et al. 2007. North Atlantic Region atmospheric circulation dynamic inferred from a late-holocene lacustrine carbonate isotope record, northern Swedish Lapland, *The Holocene* 17: pp. 867-873

Gunhild Rosqvist, Stockholm University, Sweden
Melanie J. Lang, British Geological Survey, UK
Christina Jonsson, Stockholm University, Sweden

Solomina, O., et al. 2005. Tree-ring reconstruction of Crimean drought and lake chronology correction, *Geophysical Research Letters* 32: L19704, doi:10.1029/2005GL023335.

Olga Solomina, Institute of Geography, Russian Academy of Sciences
Nicole Davi, Lamont-Doherty, Earth Observatory, U.S.
Gordon Jacoby, Lamont-Doherty Earth Observatory, U.S.

Giraudi, C., 2005. Middle to Late Holocene glacial variations periglacial processes and alluvial sedimentation on the higher Appennine massifs (Italy), *Quaternary Research* 64: 176-184,

Carlo Giraudi, ENEA, Rome

Levac, E., 2001. High resolution Holocene palynological record from the Scotian Shelf, *Marine Micropaleontology* 43: 179-197, 2001.

E. Levac, Dalhousie University, Canada

Thorndycraft, V.R. and Benito, G. 2006. The Holocene fluvial chronology of Spain: evidence from a newly compiled radiocarbon database, *Quaternary Science Reviews* 25: 223-234.

Varyl Thorndycraft, Royal Holloway University of London, UK
G. Benito, Consejo Superior de Investigaciones Científicas, Madrid, Spain

In North America

Hu, Feng Shen, et al. 2001. Pronounced climatic variations in Alaska during the last two millennia, *Proceedings of the National academy of Sciences*.

Feng Shen Hu, University of Illinois
Emi Ito, University of Minnesota
Thomas A. Grown, Lawrence Livermore Laboratory
B. F. Brandon Curry, Illinois State Geological Survey
Daniel R. Angstrom, Science Museum of Minnesota

Noreen, A., et al. 2002. Millennial-scale Storminess Variability in the Northeastern United States during the Holocene Epoch, *Nature* 419: 821-824.

Anders J. Noreen, University of Vermont

Paul R. Bierman, University of Vermont
Eric J. Stein, University of Washington
Andres Line, University of Vermont
John Southon, Lawrence Livermore Laboratory

Luckman, B.H. and Wilson, R.J.S. 2005. Summer temperatures in the Canadian Rockies during the last millennium: a revised record, *Climate Dynamics* 24: 131-144

Bryan Luckman, University of Western Ontario, Canada
R.J. S. Wilson, Edinburgh University, Scotland

Zabenskie, S. and Gajewski, K. 2007. Post-glacial climatic change on Boothia Peninsula, Nunavut, Canada, *Quaternary Research* 68: 261-270

Susan Zabenskie, University of Ottawa, Canada
Konrad Gajewski, University of Ottawa, Canada

Field, David B. and Baumgartner, Tim R. 2000. A 900-year stable isotope record of interdecadal and centennial change from the California Current, *Paleoceanography* 15: 695-708.

David B. Field, University of California, San Diego
Tim R. Baumgartner, Centro de investigacion Cientifica y de Educacion Superior de Ensenada, Mexico

Lund, D.C. and Curry, W. 2006. Florida Current surface temperature and salinity variability during the last millennium, *Paleoceanography* 21: 10.1029/2005PA001218.

David C. Lund, MIT
William Curry, MIT

Patterson, W.P. 1998. North American continental seasonality during the last millennium: high-resolution analysis of sagittal otoliths, *Palaeogeography, Palaeoclimatology, Palaeoecology* 138: 271-303.

W. P. Patterson, Syracuse University

Vance, R.E., et al. 1993. Holocene palaeohydrology of a hypersaline lake in southeastern Alberta, *Journal of Paleolimnology* 8: 103-120.

R. E. Vance, Simon Fraser University, Canada
J. J. Clague, Geological Survey of Canada
R. W. Mathewes, Simon Fraser University, Canada

Hallett, D.J., et al. 2003. A 1000-year record of forest fire, drought and lake-level change in southeastern British Columbia, Canada, *The Holocene* 13: 751-761.

Douglas J. Hallett, Simon Fraser University, Canada
R. W. Mattewes, Simon Fraser University, Canada
Robert C. Walker, Pars Canada

Loso, M.G., et al. 2006. A 1500-year record of temperature and glacial response inferred from varved Iceberg Lake, southcentral Alaska, *Quaternary Research* 66: 12-24.

Michael G. Loso, University of California/Santa Cruz
Suzanne P. Anderson, University of California/Berkeley
Paula J. Reimers, University of Sheffield, UK
Robert S. Anderson, University of Colorado

R. Z. Poore, et al, 2003. Millennial-to-century-scale variability in Gulf of Mexico Holocene climate records, *Paleoceanography* 18:

R. Z. Poore, U.S. Geological Survey
H. J. Dowsett, U.S. Geological Survey
S. Verardo, U.S. Geological Survey
T. M. Quinn, University of South Florida

Hallett, D.J. and Hills, L.V. 2006. Holocene vegetation dynamics, fire history, lake level and climate change in the Kootenay Valley, southeastern British Columbia, Canada, *Journal of Paleolimnology* 35: 351-371.

Douglass Hallet, Queen's University, Canada
L.V. Hills, University of Calgary, Canada

Sridhar, V., et al. 2006. Large wind shift on the Great Plains during the Medieval Warm Period, *Science* 313: 345-347.

V. Sridhar, University of Nebraska
David B. Loope, University of Nebraska
James B. Swinehart, University of Nebraska
Robert J Ogleby, University of Nebraska
Clinton M. Rowe, University of Nebraska
Joseph A. Mason, University of Wisconsin

Kaplan, M.R., et al. 2002. Holocene environmental variability in southern Greenland inferred from lake sediments, *Quaternary Research* 58: 149-159.

M.R. Kaplan, University of Wisconsin
AP. Wolfe, University of Alberta, Canada

G. H. Miller, University of Colorado

LaDochy, S., et al. 2007. Recent California climate variability? Spatial and temporal patterns in temperature trends, *Climate Research* 33: 159-169

Steve LaDochy, California State University, Los Angeles
Richard Medina NASA Jet Propulsion Laboratory
William Patzert, University of Utah

Pierce, J. L., et al. 2004. Fire-induced erosion and millennial-scale climate change in northern ponderosa pine forests, *Nature* 432: 87-90.

Jennifer L. Pierce, University of New Mexico
Grant A. Meyer, University of New Mexico
A.J. Timothy Jull, University of Arizona

Causey, D., et al. 2005. The palaeoenvironment of humans and marine birds of the Aleutian Islands: three millennia of change, *Fisheries Oceanography* 14 (Suppl. 1): 259-276.

Douglas Causey, Museum of Comparative Zoology, Harvard
Debra G. Corbett, U.S. Fish and Wildlife Service
Christine Lefevre, Museum of Natural History, Paris
Dixie L. West, University of Kansas
Arkady B. Savinetsky, Russian Academy of Sciences
Nina K Kiselevka, Russian Academy of Sciences
Bulat F. Khassanov, Russian Academy of Sciences

Willard, D., et al. 2001. The Florida Everglades Ecosystem: Climate and Anthropogenic Impacts over the Last Two Millennia, *Bulletins of American Paleontology*, V. 361: 41-55

D. A. Willard, U. S. Geological Survey
C.W. Holmes, U.S. Geological Survey
Lisa M. Weimer, U.S. Geological Survey

Zhang, Q.-B. and Hebda, R.J. 2005. Abrupt climate change and variability in the past four millennia of the southern Vancouver Island, Canada, *Geophysical Research Letters* 32 L16708, doi:10.1029/2005GL022913.

Qi-Bin Zhang, Chinese Academy of Sciences, Beijing
Richard J. Hebda, University of Victoria, Canada

Pierce, J. L., et al. 2004. Fire-induced erosion and millenium scale climate change in northern ponderosa pine forests, *Nature* 432: 87-90.

Jennifer Pierce, University of New Mexico
Grant Meyer, University of New Mexico
Timothy Jull, University of Arizona

Booth, R.K., et al. 2006. Widespread drought episodes in the western Great Lakes region during the past 2000 years: Geographic extent and potential mechanisms, *Earth and Planetary Science Letters* 242: 415-427.

Richard K. Booth, University of Wisconsin
Michael Notaro, University of Wisconsin
Stephen T. Jackson, University of Wyoming
John E. Kutzbach, University of Wisconsin

Hay, M. B., et al. 2007. Siliceous microfossil record of late Holocene oceanography and climate along the east coast of Vancouver Island, British Columbia (Canada), *Quaternary Research* 67: 33-49

Murray B. Hay, University Laval, Quebec, Canada
Audrey Dallimore, Geological Survey of Canada
Richard E. Thomson, Fish and oceans, Canada
Stephen E. Calvert, University of British Columbia, Canada
Reinhard Peinitz, University Laval, Quebec, Canada

Barron, J. A. and Bukry, D. 2007. Solar Forcing of Gulf of California climate during the past 2000 yr suggested by diatoms and silicoflagellates, *Marine Micropaleontology* 62: 115-139.

John A Barron, U.S. Geological Survey
D. Bukry, U.S. Geological Survey

Laird, K.R., et al. 1998. A diatom-based reconstruction of drought intensity, duration, and frequency from Moon Lake, North Dakota: a sub-decadal record of the last 2300 years, *Journal of Paleolimnology* 19: 161-179.

K.R. Laird, University of Minnesota
S.C. Fritz, Queen's University, Canada
B.F. Cumming, Lehigh University

Meyer, G.A., et al. 1995. Fire and alluvial chronology in Yellowstone National Park: Climatic and intrinsic controls on Holocene geomorphic processes, *GSA Bulletin* 107: 1211-1230.

Grant A. Meyer, Middlebury College
Stephen G. Wells, University of California/Riverside
A. J. Timothy Jull, Arizona Facility for Isotope Dating.

Carbotte, S.M. et al. 2004, Environmental change and oyster colonization within the Hudson River estuary linked to Holocene climate, *Geo-Marine Letters* 24: 212-224

Carbotte, Suzanne, Lamont-Doherty Earth Observatory
Bell, Robin, Lamont-Doherty Earth Observatory
Ryan, William F., Lamont-Doherty Earth Observatory
Nitsche, Frank, Lamont-Doherty Earth Observatory
Rubenstone, Jim, Lamont-Doherty Earth Observatory
Slagle, Angela, Lamont-Doherty Earth Observatory
McHugh, C., Queens College, New York

Campbell, I. D., et al., “Late Holocene ca 1500 yr. climatic periodicities and their implications, *Geology* 26: 471-473

Ian D. Campbell, Canadian Forest Service
Celina Campbell, Canadian Forest Service
Michael J. Apps, Canadian Forest Service
Nathaniel W. Rutter, Canadian Forest Service
Andrew B. G. Bush, Canadian Forest Service

Schwalb, A. and Dean, W.E. 1998. Stable isotopes and sediments from Pickerel Lake, South Dakota, USA: a 12ky record of environmental changes, *Journal of Paleolimnology* 20: 15-30.

Antje Schwalb, University of Gottingen, Germany
Walter E. Dean, U.S. Geological Survey

Pederson, D.C., et al. 2005. Medieval Warming, Little Ice Age, and European impact on the environment during the last millennium in the lower Hudson Valley, New York, USA, *Quaternary Research* 63: 238-249.
